Redhorse Corporation Co., Ltd.

About the opening of Workman House Muroan

Redhorse Corporation Co., Ltd. (Headquarters: Koto-ku, Tokyo, Representative Corporate Officer CEO: Bruce SHU, Representative Corporate Officer President: Takaharu MIYAMOTO, hereinafter referred to as "the Company") is working to support regional revitalization through accommodation facilities.

We have launched the "Workman House" brand as an accommodation facility exclusively for construction companies during business trips. In June 2020, the 1st location "Workman House Takikawa" (Takikawa City, Hokkaido) opened. After that, the 2nd location "Workman House Muroan" held its grand open.

"Workman House Muroan", located in Muroan City in south-central Hokkaido (Central Hokkaido), is a 25-room facility that was converted from a former student dormitory, so the rooms remain great private spaces.

The dining room is capacious for a relaxing meal.

The Company facilitates regional revitalization of Hokkaido through the accommodation business.

With the opening of this facility, we will start to contribute to the regional revitalization business of Muroran City and make efforts to promote regional revitalization and town development in Muroran City.
